How We Teach It

Teaching Truths through Stories

This course avoids a moralistic, oversimplified approach by learning and applying biblical principles from key Bible stories. *Bible 3* introduces students to important biblical principles and then shows them how to arrive at those principles from key Bible stories.

Captivating Artwork

Artwork in the student worktext will captivate and engage students. Most Bible stories include several corresponding visuals that will help further explain the content, using realistic art for Bible accounts that is age-appropriate and appealing to add interest and engagement in the lesson.

Key Themes

Each of the new catechisms in the course will revolve around six worldview-shaping themes: God, the Fall, Christ, salvation and redemption, Christian living, and the end times.
