This report provides the following information for this student:

- ITED Scores. Grade Equivalents describe this student's developmental level in each area. The percentile rank bar graphs can be used to identify her strongest and weakest areas.
- ACT/SAT Predicted Score Ranges. These score ranges indicate the level of ACT-Composite, SAT-Verbal, and SAT-Quantitative scores that students with ITED scores like this student's often attain.
- Future Plans. This box shows which of five options this student marked on her answer folder regarding her post-secondary plans.
- Interest Explorer Career Scores. This student's level of interest in each of the 14 career areas measured by Interest Explorer, Level 2, is reported. Career areas are ranked, according to her score on each, from highest interest to lowest interest. These career areas can be linked to the major occupational groups used by the Department of Labor in its publications and on its website.
- Interest Explorer Subjects and Opportunities. Interest Explorer also provides statements that solicit a student's level of interest in certain subject areas and work opportunities. The school subjects and work preferences or opportunities that this student indicated she liked or disliked are listed.

Further assistance with using this information can be found in the ITED Interpretive Guide for Teachers and Counselors.
