

World Studies for Christian Schools, 2nd ed., Activities/Student Text Correlations

This list is intended as a supplement to *World Studies for Christian Schools*, 2nd ed., published by BJU Press. **It is not intended to replace the teacher's looking over the material for himself/herself.** This list attempts to provide for the teacher the pages where the material in the activity is discussed in the Student Text. Many times, there is a large range of pages that the activity covers. In most cases, the activity would be assigned at the end of the material it covers, but it is always at the teacher's discretion to decide the time to assign the activity. **Remember to look over the activity since the instructions to the activity may, at times, include more page numbers that will be referenced.**

* designates an activity that covers an entire chapter in its scope (Chapter Review). The teacher may assign this activity at his/her discretion.

† designates a map activity. The teacher should look at the topic of the map to decide when to assign this activity. The page numbers listed on the activity should greatly assist the teacher to assign the proper place.
